

“THE SUREGRIP™ VENT SUPPORT PLATE CAN SOLVE YOUR VENT SUPPORT PROBLEMS...”

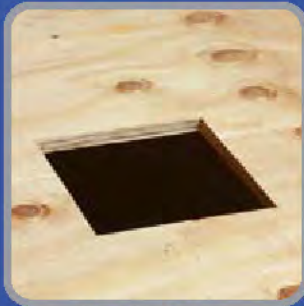

- Roofers pushing the vent down causing you to have to come back to reset the vent.
- Inspectors saying you haven't provided adequate support.
- Working around roof trusses to support the vent.
- Cutting and fabrication vent supports in the field.
- Getting stuck in the attic making a roof support when it's over 100° up there.
- Your boss wondering why you can't get off the job faster.

SUREGRIP™ VENT SUPPORT PLATE

The fastest, easiest way to support B-Vent where it penetrates floors and ceilings...just a few minutes and you're finished!

Cut the hole.

Mount SureGrip.

Push pipe through.

Continue adding pipe sections - supports up to 90 lbs.
